7 Representing and promoting members' interests

Association's Structure

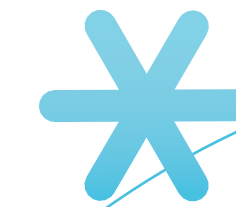

Decisions on positions papers

The position is formed by the consensus of member companies

If there are companies that oppose the proposed position, the support of $\frac{2}{3}$ of the member companies is needed

All positions are published

The position may not be published only if more than $\frac{1}{2}$ of the members vote for this decision

A separate opinion

A member company can add a separate opinion to the position. The support of at least $\frac{1}{3}$ of the member companies of the Association is required
